

Many people have found their calling in research, teaching or administration at the University of Innsbruck. Together we are a university, together we make a difference!

University assistant – Postdoc

In this position, you will research, publish and teach independently in the field of production technology and supervise Bachelor's and Master's students for final theses and general laboratory activities. You will also be involved in organisational and administrative tasks and have the opportunity to participate in congresses, specialist conferences and further training courses.

Your Profile:

- » Diploma or Master's degree in mechanical engineering, mechatronics, industrial engineering, electrical engineering or related fields as well as a completed doctorate
- » Very good written and spoken German
- » Ability to work in a team, problem-solving skills and basic interdisciplinary understanding
- » Teaching experience and skills in at least one of the following subject areas Production engineering, human-machine systems, robotics, manufacturing engineering, sports and exercise science, product development

Our offer:

With us, you can expect exciting tasks, flexible working hours, a family-friendly working environment, attractive training and development opportunities, a paid lunch break, a meal allowance and much more!

For this position in job group B1/3, a minimum gross salary of € 4.752,- / month (14 times)* for full-time employment is provided according to the collective agreement. Your actual salary will depend on your previous experience and will increase over the course of your employment. * as of 2024

The University of Innsbruck emphasizes equal opportunities and diversity in its personnel policy. The University of Innsbruck strives to increase the percentage of women and thus expressly encourages women to apply. This is particularly true for leading positions and scientific job offers. In case of underrepresentation women with the same qualifications will be given priority. Following Austrian disability legislation, qualified persons are strongly encouraged to apply.
